

KIP BOYLE

10 Steps to Master Cybersecurity

1. Take the threat seriously! *All organizations are targets.*
2. Stay ahead of the threat. *Avoid costly distractions.*
3. Understand what's at risk. *From recreating a file to bankruptcy.*
4. Take this tremendous opportunity! *It's a competitive advantage.*
5. Think about more than technology. *People and process matter.*
6. Do a cyber risk assessment. *It's your best next move.*
7. Use an independent assessor. *Get more insight and options.*
8. Demand an easy-to-read report. *Anyone should understand it.*
9. Get recommendations rank ordered. *Pick low-hanging fruit first!*
10. Designate a point person. *Make sure all the work gets done.*
11. *Bonus:* Coordinate with your compliance programs. *Avoid duplication of effort!*

KIP BOYLE

Cyber Risk Services

DISCOVERY AND ASSESSMENT

A rapid, high quality, independent assessment of your cyber security program by an expert. You'll get an easy to read report with prioritized recommendations along with a Q&A session to deepen your understanding.

VIRTUAL CHIEF INFORMATION SECURITY OFFICER (CISO)

Ongoing, part-time leadership that will dramatically increase your organization's readiness to prevent, detect, and respond to cyber attack. Greater resilience will enable you to operate not only in today's market, but put you on the leading edge for tomorrow's landscape.

IMPLEMENTATION

My team will provide you with the tools and training your organization needs to dramatically reduce the risk of business disruption due to cyber security failures, clearing the way for you to achieve greater profits.

ADVISORY

Whether topical or on-going, advice from me will help you lead cyber security conversations with your peers, boss, and auditors. *I want you to succeed!*
